Since 1979 System Scale has provided outstanding products and service to clients. As employee owners, everyone at System Scale is dedicated to your total satisfaction. We are ISO 9002 Accredited and adhere to strict guidelines each day and in everything we do.

Calibration and Repair

SSC Lab Division- SSC Lab Division provides ISO/IEC 17025 calibrations as a single source responsibility calibration program. Our lab can provide calibrations for Physical, Dimensional, DC/Low Voltage, Thermodynamic, Multi-Functional and Time calibrations. We offer Standard Service Programs, ISO Paperwork, ISO 17025 Paperwork and Preventative Maintenance Programs. We work around your schedule to make sure there is minimum disruption to your operation.

DEM and NIST Calibration Procedures- We follow strict OEM (Original Equipment Manufacturer) and NIST procedures to insure that your equipment will be setup and maintained, tested not only with traceable standards but to manufacturer and OEM recommendations.

Sales

Truck and Rail Solutions- For weighing trucks and/or railroad cars, we offer concrete and steel deck models starting at 10'. Various technologies are available to meet your needs including electronic, mechanical and hydraulic.

Instrumentation Solutions- We offer instrumentation to fit any requirement from a basic weight only display to sophisticated PLC and computer integration.

Load Cell Solutions- We offer many styles with capacities from 1lb. to 1,000,000 lbs.

Floor Scale Solutions- We offer general purpose or wash down units that may be fixed or portable.

Bench and Table Top Solutions- We offer both general purpose and wash down units in many sizes. We have high resolution scales for extremely precise weighing.

Counting Solutions- If you need to count parts quickly, we offer both plug in and wall power units to fit any requirement.

Custom Solutions- We offer customizable PC and Weighing Terminal based solutions including data collection, printing and bar code applications with RF solutions up to 5 miles. Bring us your need and we will work to find a solution right for you.

Consulting

We work with a vary diverse customer base and have thirty years of experience in the industry. **How can we help you?**

Rentals

Scales are most often rented for parts counting inventory and peak production periods or special events. Weighing has never been faster or simpler than it is today. Our sophisticated, yet simple to operate counting/ weighing scale enables you to complete jobs that once took hours in just minutes. We can provide scales to weigh or count Featherweight Components to Truck Scales. Our rental offering includes:

- Counting or Weighing Scales up to 200,000 lbs.
- Printer and Data Collection
- Pick Up and Delivery Service
- Short or Long Term Rentals

We can deliver rental scales directly to your job site and provide setup, training and stand-by services to support your project.
