

# EMERY WINSLOW PRODUCT LINE

Industrial Scales for Difficult Environments: Specialty Weighing Systems

## Heavy Duty Scales

- Single axle loading to 120,000-lbs or more
- Extra wide loads – side by side scales
- Hydrostatic or Electronic load cells
- Specialty paint coatings – galvanized weighbridges
- Extra heavy support beams for long usage life
- Hydrostatic systems are IMMUNE to water and transient voltages
- Made in the USA

## Rail Scale and Aircraft Weighing

- AREA Rated Railroad Scale (E-80 standard)
- Twin bridge and full bridge designs
- Railroad approved
- Combination track and truck available in some locals
- Aircraft center of gravity determination includes software
- Airport "LEASING" programs available
- Hydrostatic load cells are IMMUNE to water and transient voltages
- All materials are Made in the USA

BOEING	PLATFORM	CAPACITY
747	1	200,000 LBS
	2	100,000 LBS
	3	50,000 LBS
	4	25,000 LBS
	5	12,500 LBS
	6	6,250 LBS
	7	3,125 LBS

## Animal Scales and Livestock Scales

- Hydrostatic, to 50,000-lb FS capacity
- Load cells are IMMUNE to water and transient voltages
- Guaranteed for LIFE against failure from water, lightning, power surges, or rodents
- Made in the USA

## Explosion Proof and Intrinsically Safe

Rock fuel, Gas and Oil platform weighing, in chemical plants, all Hydrostatic systems are non-electric at the scale site, and Guaranteed for LIFE against failure from water, lightning, power surges, or rodents Made in the USA

Installing a coil scale

Rotating wrapping scale

Portable rocket fuel scale, 50,000-lbs x 1.0-lb increments with explosion proof NEMA7/9 enclosure
